ABOUT US

KRITIKA UDYOG under the brand name RSM®, a major provider of sanitary fittings, dedicated to providing innovative water products.

For many years RSM® has been committed to the brand value of technology, quality, design and sustain ability that all illustrate RSM®'s commitment to creating exceptional experiences, with its engineering, innovation and design activities firmly anchored in our products, ultimately strengthening the customer's confidence in the brand. The plant of the RSM® manufacturing unit makes use of high-precision production engineering to ensure compliance with the consistently high standards. This way RSM® ensures that its products live up to the most uncompromising demands of workmanship and functionality.

COMPANY'S AIM

Our aim is to provide the best Quality and enhanced services to our customers. We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning.

MANUFACTURING PROCESS

RSM professional production represents the strength of its manufacturing unit. RSM standing at the top of manufacturing technology, It shows the charm of indian creation, production forms a surmounted core advantages by leading the most advanced automatic equipment and accumulating technical storage all the way.

CARTRIDGES

- The heart of every faucet, the cartridge is responsible for controlling water supply.
- RSM cartridges are 2 lacs cycle tested to give a longer and trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort and flawless, smooth operation
- Our cartridge spindle is made of brass instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5 - 5 bar)

AERATORS

- Devices that mix air with water to give a soft and splash-free flow.
- Our integrated honeycomb-structured aerator, provides lime buildup protection
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles

CHROME FINISH

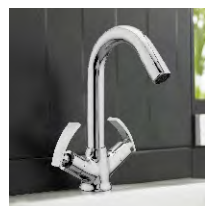

- Upper shiny protection layer provides a mirror finish to every faucet.
- High Plating thickness (Nickel : 10 microns and chrome : 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.

ISI mark is a mark for industrial products in India. The mark certifies that a product conforms to the Indian Standard (IS), developed by the Bureau of Indian Standards (BIS), the national standards body of India. The ISI mark is by far the most recognized certification mark in the Indian subcontinent. The name ISI is an abbreviation of Indian Standards Institute, the former name of the Bureau of Indian Standards.
